DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. Claims 1-15 are allowed.

Independent claims 1, 6 and 11 have been amended in applicant's instant reply and now recite a step of or means for "sending a message informing a subscriber associated with the subscriber DSL modem of when restoration of the DSL communication link to the subscriber DSL modem is expected, said message being sent by the administrative system only after a predetermined amount of time has passed since notification of the administrative system of the failure and the DSL communication link with the subscriber DSL modem has not been restored" (emphasis added). In contrast, the closest cited prior art Owens discloses that the administrative system sends a message informing a subscriber in step 440 responsive to an earlier determination step 428 executed in the subscriber's DSL modem that either new info or a time elapse has occurred. This union of elements does not anticipate the claimed intersection of elements. Moreover, no suggestion or teaching to provide such an intersection is present since the determination made in step 428 is totally opaque to step 440. Thus, claims 1, 6 and 11 are allowable over the cited prior art.

Claims 2-5, 7-10 and 12-15 depend variously on claims 1, 6 and 11, and are allowable over the cited prior art for at least the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
